

MACY WILLIAMS

DATA SCIENTIST

ABOUT

Data Scientist working on problems related to market research and customer analysis. I want to expand my arsenal of application building and work on different kinds of problems. Looking for a role where I can work with a coordinative team and exchange knowledge during the process.

SKILLS

Java, C++, Python, Machine Learning, Algorithms, Natural Language Processing, Deep Learning, Computer Vision, Pattern Recognition, Data Science, Data Analysis, Software Engineer, Data Analyst, C, PySpark, Kubeflow.

PROJECTS

Customer browsing patterns.
Predict potential RTO(Return To Origin) orders for e-commerce.

ACTIVITIES

Object Detection.

WORK EXPERIENCE

One97 Communications Limited
Data Scientist Jan 2019 to Till Date

Detect important information from images and redact required fields. YOLO CNN Object-detection, OCR Insights, find anomaly or performance drop in all possible sub-space.
Predict the Insurance claim probability. Estimate the premium amount to be charged

EDUCATION

B.Tech(Computer Science) from SGBAU university in 2017.
M.Tech (Computer Science Engineering) from Indian Institute of Technology (IIT), Kanpur in 2019
